

All About ...

PRACTICAL SKILLS FOR NHS HEALTH CHECKS

Course Overview

Attending our half day course will allow you to learn and practice the practical skills needed to deliver an NHS Health Check.

Course Content

Understanding how to do it right and what can happen if it's done wrong:

- > Blood pressure
- > Pulse
- > Height
- > Weight
- > Waist Circumference
- > Audit C and GPPAQ
- > Blood glucose and cholesterol testing (available upon request)
- > Case Studies

“

I loved the visual aspects, I am a visual learner and was immediately interested in “fun” learning, I enjoyed Michaela’s entire presentation ”

Learning Outcomes

- > Be able to explain why each measurement needs to be taken
- > Understand how to perform each skill accurately
- > Able to state factors that influence results being inaccurately measured
- > Be able to describe the agreed process when a physiological measurement falls outside of normal levels
- > Understand how all materials and equipment to be used are appropriately prepared

Who should attend?

- > Anyone who delivers NHS Health Checks including:
 - o Health Care Assistants
 - o Health Trainers
 - o Pharmacists
 - o Health Champions

“

The practical on taking a good BP was great - also how to take an accurate manual pulse to check for AF”

“

I found GPPAQ training pointless before but now it has been explained it all makes a lot more sense”
